

OCC Chairs Newly Formed NASUCA Committee

OCC is excited to announce that it is the chair of the newly formed Distributed Energy Resources (“DER”) Committee of the National Association of Utility Consumer Advocates (“NASUCA”). The mission of the DER Committee is “To share information and establish policies regarding energy efficiency, renewable energy, and distributed generation (collectively, Distributed Energy Resources or “DER”), and consider best practices for the development of cost-effective programs which promote fairness and value for all consumers.”

OCC was instrumental in the DER Committee’s formation, and looks forward to taking a leadership role in helping the DER Committee establish national policy for utility consumer advocates. In this role, OCC arranged for a speaker from the American Council for an Energy Efficient Economy (ACEEE) to speak to the DER Committee in November regarding the methodology behind the ACEEE State Scorecard on energy efficiency. ACEEE’s slides for that meeting can be viewed [here](#).
